# 1. CUSTOMER SEGMENT(S)

Who is your customer? i.e. working parents of 0-5 y.o. kids

Define

fit into

- General consumers who are in need of a product.
- They can be of all ages.

# 6. CUSTOMER CONSTRAINTS

What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available

- Cost of product.
- Quality product.
- Lack of network connection.
- Delivery cost.
- Product delivery delay.
- Device to order.

### 5. AVAILABLE SOLUTIONS

Which solutions are available to the customers when they face the

or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital

- They can compare the cost of product and purchase their desired choice.
- They can return if the quality does not satisfy their expectation.
- They can see when the delivery date is and they can decide to purchase the product or not.

## 2. JOBS-TO-BE-DONE / PROBLEMS

Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.

- Maintaining up-to-date products.
- Ordering the right amount and not in excess.
- Purchasing the products in lower price than selling price.
- Having competitive stock pricings.
- Product demand forecasting.
- Not having enough bandwidth to support 'n' number of consumers in the site at a time.

## 9. PROBLEM ROOT CAUSE

What is the real reason that this problem exists? What is the back story behind the need to do this job?

i.e. customers have to do it because of the change in regulations.

- Can't predict customers needs in short period of time. Need data to have an accurate stock prediction.
- Contacting suppliers and getting good deals from them.
- Having low bandwidth to hold sufficient consumers in the site.

#### 7. BEHAVIOUR

What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)

- Estimation of sales prediction to stock up by having customer feedback.
- Finding good supplier with low cost of product.
- Customer feedback for improvement of application.
- Having sufficient bandwidth to support on demand consumers.

## 3. TRIGGERS

Identify

strong

- Customer unable to reach the application due to high demand.
- Having the stock price high.
- Lack of application service.

## 10. YOUR SOLUTION

If you are working on an existing business, write down your current solution first,

What kind of actions do customers take online? Extract online channels from #7

8 2 OFFLINE

8. CHANNELS of BEHAVIOUR

What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development.

ONLINE - Can access all the services and details.

OFFLINE - SMS notification for detailed list of enquiries.

# 4. EMOTIONS: BEFORE / AFTER

BEFORE - Untrusted, worried, lack of knowledge of stocks.

AFTER - Trusted, happy, referring to others, having sound knowledge of stocks, etc.

fill in the canvas, and check how much it fits reality.

solves a problem and matches customer behavior

 Deploying the application in a cloud server that tracks the real-time

inventory and manages them. Such as purchase details, sales, sales prediction, etc.

If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations,

- o It sends an email to the retailers when the stocks are low and needs to be restocked.
- Having a chatbot to guide and help the consumers who are having
